## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Claims 77-87 and 89-97 are considered allowable since when reading the claims in light of the specification, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims. As to claims 77-87, the prior art of record does not teach a downstream re-multiplexing engine, coupled to the packet switch engine and to a plurality of down stream transmit units and a plurality of media-access controllers coupled to the down stream re-multiplexing engine, the packet switch engine and to upstream channels, the media-access controllers provide packets received from the upstream channels either to the downstream re-multiplexing engine or to the packet switch engine, according to packet content type and packet original destination.

As to claims 89-93 and 96, the prior art of record does not teach multiplexing the packet, over media-over-broadband network transmission, when the packet is a part of a media session over media-over-broadband network transmission, not authorized for rate adaptation multiplexing. As to claims 94 and 95, the prior art of record does not teach assigning priority to each session associated with a received packet; detecting transmit system load; controlling the session transmit order and quality according to the detected transmit system load. As to claim 97, the prior art of record does not teach

wherein the data-over-broadband network transmission includes data-over-cable (DOCSIS) transmission. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
